

XD-A application form

1 Significance and objective of your research

2 Research plan and methods

3 Preparation of computational code

3.1 Development and optimization of computational codes

3.2 Estimate of the amount of required computing resources

	System M	System P	System P (requesting B* if not approved)
total computation time (k nodes \times hours)	–	–	(no need to fill)
memory amount per node (GB/node)	–	–	–

4 References cited in Sections 1–3

5 Research results you have achieved so far

5.1 Publications achieved through the use of CfCA's facilities

5.2 Publications achieved through the use of other facilities
