

PCC (Personal Computer Cluster) application form

1 Significance and objective of your research

2 Research plan and methods

3 Preparation of computational code

3.1 Development and optimization of computational codes

Applications in PCC (Personal Computer Cluster) do not require any descriptions of this section.

3.2 Estimate of the amount of required computing resources

4 References cited in Sections 1–3

5 Research results you have achieved so far

5.1 Publications achieved through the use of CfCA's facilities

5.2 Publications achieved through the use of other facilities
